Feedback for Julia

1. Horizontal lines beneath the titles are not so necessary

2. I like the text ANDY WARHOL, but it can be of a more consistent color scheme. Try extract colors from one or several artworks of similar tone. Can repeat colors for the letters.

3. Try all lowercase for titles. Colors and styles of titles look great, especially the colors have vibrance of Warhol's artworks.

4. Keep the running text sans serif typeface (for Minimalism).

5. Add more artworks; add title/year/medium etc. below the pictures.

6. Play with it. Have fun!
